+Free (Now) +Nice step into the FPS -No one is playing it -Some people paid for it and got nothing in return 2/5 Would be good if there was more than one server with 3 bots up. But there isn't, this game is dead. It used to cost money, but to try to get people to play they made it free without offering any type of skin or anything to the people who did play. So those people quit unhappy that they got nothing for supporting the developers. I'd just get Pavlov instead. If you liked this review Click here and follow for more reviews of VR titles.
